PLAZZ

JOB OFFER:
CLOUD DEVELOPER /
DEVOPS ENGINEER

(M/F/D)

What: Permanent position, full-time
When: Now
Where: Erfurt, Bahnhofstr. 5a
or also predominantly remote

P PLAZZ

As a DevOps Engineer (m/f/d) at plazz AG you will be involved in all areas of development and work with many different technologies from the native, API & web frontend area.

You will join a young, dynamic team where what counts is what you can do and not who you are. New ideas and different views are, with a good justification, always welcome. You should have analytical thinking and abstraction skills to solve complex tasks. The main task is to evaluate and deploy new systems and maintain the existing components.

PLAZZ

WHAT YOU CAN EXPECT

You will work intensively with software developers during product development and adapt and expand the CI/CD pipelines for the team. You will get the chance to significantly contribute to the optimization of the infrastructure that we implement at plazz AG using the Infrastructure-as-Code approach in order to link the distributed systems in a traceable way.

You define the infrastructure components using Terraform and deploy the application containers into the Kubernets cluster using Helm. You provision virtual machines with ansible and packer.

- You will play a key role in product development and contribute your ideas
- Establish further development of products for international companies
- You can grow with your tasks and fill your area with responsibility
- Prospect of managing a specialist department

PLAZZ

WHAT WE EXPECT

- Education or studies in the field of computer science
- Basic knowledge of programming and scripting
- Understanding of markup languages
- Knowledge and enjoyment of Continuous Integration & Delivery with Gitlab, Jenkins or similar.
- An understanding of the term "Infrastructure as Code
- Ability to work in a team
- Fun with developing scalable infrastructures
- A knack for solving tricky tasks
- A high degree of commitment and flexibility

PLAZZ

WHAT WE OFFER

- Participation in shaping your area of responsibility
- Work in an agile environment with friendly colleagues
- Opportunities to take on responsibility and team leadership for your area early on
