

JOB OFFER:

Software Engineer – Android

(M/W/D)

Was: Permanent position, fulltime

Wann: Now

Wo: Erfurt, Bahnhofstr. 5a /remote/hybrid

Are you always up to date with the latest technologies in software development? You are enthusiastic about mobile app development and are convinced of the added value of native apps? Do you stand up for good software quality and value systematic testing? You face big challenges and they spur you on?

Great, then we are looking for you! As an Android Developer (m/f/d) in software development, you will work closely with your colleagues and other departments and help to advance the company and our products.

WHAT YOU CAN EXPECT

- Support the established event management platform and implement the wishes of renowned customers
- Contribute significantly to the product development of our new product generation
- Develop innovative solutions in your specialist area
- Developing products for large companies
- Grow with your tasks and get a perspective for the future

WHAT WE EXPECT

- Finished studies or apprenticeship in computer science
Do you maybe even have a certification as an Android developer?
- Very good knowledge of programming languages Kotlin and Java
- Experience with frameworks like Retrofit, ObjectBox, Koin, Android Jetpack libraries
- Experience with dependency injection, MVVM, multi-module-architecture, asynchronous programming
- Experience with unit testing (JUnit) and android instrumented testing
- Good German language skills or willingness to improve
- A good sense for clean code and its integration into large software architectures
- An eye for potential problems and the resulting continuous improvement of already completed packages
- The big picture in mind and think outside the box for current tasks
- A knack for solving tricky tasks
- A high degree of commitment and flexibility

WHAT WE OFFER

- With us you will work in a dynamic team with flat hierarchies
- hierarchies and a pleasant working atmosphere
- on-site working with us in the Erfurt office, but also hybrid work model with large remote part possible
- You have enough leeway to take on responsibility early on
- You will work together with talented colleagues
